

CAUDWELL CHILDREN & MUKUL MADHAV FOUNDATION

Impact report
November 2022

Trudi Beswick
Chief Executive

#THISISUS

Creators of cost effective, innovative, person-led services that change societal issues for disabled children, young adults and their families.

We want to create a world where disabled children and their families have **choice**, **opportunity**, **dignity** and **understanding**.

We strive to **'see the child, not the disability'**, influencing the acceleration of humanity through collaboration with others on inclusion, diversity and equity.

Our core concern is to make sure stakeholder voices are heard so that they influence policy and society to improve.

Founded 2000

65,000

children & families supported

£85MILLION

worth of services provided

700+

medical conditions supported

SPREAD HOPE. SPREAD HAPPINESS

“It has been life changing for us as a family.

It's been a very long fight to get that assessment and diagnosis for both of my sons. My eldest had spent nearly 4 years stuck in limbo on a waiting list and I've been fighting for the right support and services for my younger son for the last 6 years (since he was 2).

I've faced nothing but brick walls and had my parenting bought into question on many occasion. Coming to the Caudwell International Children's Centre has changed all of that. It confirmed everything I've ever suspected about my boys. Honestly as their mom I feel totally vindicated.

It's given me confidence.

Its helped my sons understand themselves a little more too.

Really it's just been brilliant.”

THANK YOU FOR YOUR CONTINUED SUPPORT.

TOGETHER WE ARE CHANGING LIVES.
